JK-DN25B Multifunction Torsion and Twist Machine

The picture of Machine

The picture of Product

Brief Instruction

This machine program setting automatic correction, accurate braking procedures are more effective in ensuring the consistency of a large number of production and products. The spindle speed of the machine is uniform, smooth operation, at the same time can twist many pieces square steel together. The product made by this machine can used into iron art staircase's beginning part, and iron art door handle. If you need more than 800 mm of the material twist, you can buy split body of the machine.

Main Features

1. Manual setting and automatic repetition, guaranteeing the product processing homogeneity and reducing labor time and intensity.
2. Spindle speed uniform, bending coarse and ensure that the smaller profile, the machine can play the most effective role in its function.
3. Attaching molds.
 - 1). 4 sets for square steel: 12*12, 14*14, 16*16, 20*20mm
 - 2). 3 sets for flat iron: 16*5, 20*6, 30*8 mm
4. It is easy to change the dies, only need several seconds.
5. The max working ability is 25*25 mm square steel.

Main Performance

Working Ability	Torsion	Flat Iron	≤ 30*8 mm
		Square Tube	≤ 20*20 mm
		Round Steel	φ12 mm
		Square Steel	12*12 mm
Material Twist Length:		200-800 mm	
Motor Performance		Power	2.2 KW
		Voltage	380 V

Attaching Parts

Package Performance

J° Pallets	1
Dimensions of the machine	1250*600*1100mm
External Dimensions	1300*650*1150mm
Volume	0.98 m ³
Net Weight	450 KG
Gross Weight	500 KG

Other Features:

- Pallet bench to move the machine easily to the work site or storage.
- The machine is delivered completely mounted.
- Packaging with steel pallet and 3-layered cardboard, suitable for sea freight.
- Optional: Complete wooden packaging for free fumigation.

We guarantee safe, fast and efficient transport.
