JK-DL60S Cold Rolling Embossing Machine

The picture of Machine

Brief Instruction

This machine can make patterns in the square tube's four corners, can make into railing of the stairs used pipe. Running smoothly, safe and reliable. Applicable to buildings, tourist attractions and home decoration and other industries.

Main Features:

1. The user can set the processing speed according to the material and size in the ranges.
2. This machine has modular design, sophisticated processing, beautiful appearance, easy assembly and dis-assembly, easy to operate.
3. Has many embossing molds, using the combination method, one mold used for many materials, convenient replacement and can automatically adjust the core, long service life, high working efficiency. The machine has good processing performance, and is provided with a leveling and straightening device, which enable the rolling material to be straight and beautiful.
4. The machine has 1 set of square tube mold, can made 20-70 mm square tube compressed four corners into flower. Use of advanced reducer, smooth operation, safe and reliable, long using life.

The picture of Product

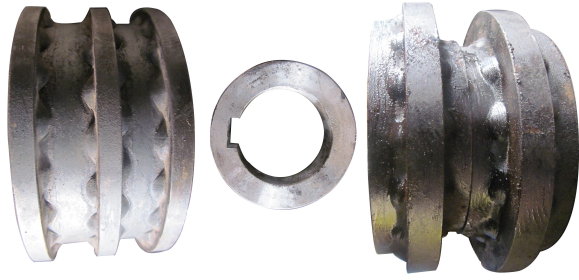

Main Performance

Working Ability	Square Tube	≤75*75 mm
Rolling Speed	600 M/H	
Motor Performance	Power	4 KW
	Voltage	380 V
	Frequency	50 HZ

Attaching Parts

Package Performance

J° Pallets	1
------------	---

Dimensions of the machine	1400*1280*1300mm
External Dimensions	1450*1330*1350mm
Volume	2.61m³
Net Weight	670KG
Gross Weight	700KG

Other Features:

- Pallet bench to move the machine easily to the work site or storage.
- The machine is delivered completely mounted.
- Packaging with steel pallet and 3-layered cardboard, suitable for sea freight.
- **Optional: Complete wooden packaging for free fumigation.**

We guarantee safe, fast and efficient transport.
