### JK-DL100 Cold Rolling Embossing Machine

#### The picture of Machine

#### Brief Instruction

This machine can make patterns in the square tube's four corners, can make into railing of the stairs used pipe. Running smoothly, safe and reliable. Applicable to buildings, tourist attractions and home decoration and other industries. Compare with JK-DL60S, it have stronger working ability and power, so it can make more kinds of products. The key point of making different product is the mold, we can according to customer's need make the right mold.

#### Main Features:

1. The user can set the processing speed according to the material and size in the ranges.
2. This machine has modular design, sophisticated processing, beautiful appearance, easy assembly and dis-assembly, easy to operate.
3. Has many embossing molds, using the combination method, one mold used for many materials, convenient replacement and can automatically adjust the core, long service life, high working efficiency. The machine has good processing performance, and is provided with a leveling and straightening device, which enable the rolling material to be straight and beautiful.

#### The picture of Product

#### Main Performance

Working Ability	Flat Iron	≤60*20 MM
	Square Steel	≤30*30MM
	Round Steel	≤φ 20 MM
	Square Tube	≤100*100 MM
Rolling Speed	600 M/H	
Motor Performance	Power	5.5 KW
	Voltage	380 V
	Frequency	50 HZ

## Attaching Parts

## Package Performance

J° Pallets	1
Dimensions of the machine	1550*1280*1300mm
External Dimensions	1650*1350*1350mm
Volume	3.1m <sup>3</sup>
Net Weight	1000KG
Gross Weight	1100KG

### Other Features:

- Pallet bench to move the machine easily to the work site or storage.
- The machine is delivered completely mounted.
- Packaging with steel pallet and 3-layered cardboard, suitable for sea freight.
- Optional: Complete wooden packaging for free fumigation.

**We guarantee safe, fast and efficient transport.**
